WHY
GO GREEN

THE NEW GRAND RAPIDS ART MUSEUM

Product Presentation

Permapave™ Permeable Pavers, made from natural stone, filter 100% of gross pollutants and are completely pervious with a flow through rate of up to 7.5 gallons per second per square meter.

Applications

Residential & Commercial. Countless installations have proven to be successful in urban areas where a large amount of stormwater collects.

Features

- Sizes: 12-in. x 12-in. x 2-in., 12-in. x 12-in. x 4-in., and 16-in. x 16-in. x 2-in.
- Custom color aggregate, samples & sizes available.
- Safe non-slip.
- Easy installation.
- On-site pour available.
- Pending EPA, DEC, DEP Approval.

Benefits

Allows water to drain through the body of the paver to absorb into the ground and subterranean aquifers. 100% environmentally friendly product, LEED™ green building credits applicable, long term cost-effective solution over asphalt or concrete.

Performance Capabilities

- Water exiting the system has 98% of hydrocarbons filtered from it, 80% of heavy metals, and 70% phosphates.
- Complies with ASTM C67 Freeze/Thaw requirements.
- No color loss from UV.
- Unaffected by salt.
- Confined compressive strength of between 4,000 and 8,000lbs per -sq.-in.
- Suitable for light commercial traffic applications.
- Suitable for rooftop paver applications.

Warranty Information

10 year limited warranty.

Other Products Offered

Stormwater Filtration Grates, Lintel Filtration Grates, Contaminant Filtration Systems, Curb Bio-retention Systems.
